

The Spire Dyslexia Pathway

What is Dyslexia?

- Dyslexia is a learning difficulty that primarily affects the skills involved in accurate and fluent word reading and spelling.
- Characteristic features of Dyslexia include difficulties in phonological awareness, verbal memory and verbal processing speed.
- A good indication of the severity and persistence of dyslexic difficulties can be gained by examining how the individual responds or has responded to well-founded intervention. (The Rose Report, 2009)
